

AEGIS SCIENCES CORPORATION Summer Internship

Sponsored by
AEGIS SCIENCES CORPORATION
HENDERSONVILLE CHAMBER OF COMMERCE
COMPASS

ABOUT

Through the Aegis Sciences Corporation summer internship, selected science teachers and nurses from middle and high schools and serving the youth of Sumner County will receive a modern research experience that employs basic and advanced scientific techniques to address questions related to Forensic Toxicology. Aegis Sciences is a forensic reference laboratory located in Nashville that provides toxicology and consulting services to sports organizations, medical examiner systems, crime laboratories, physicians, corporations, and other organizations throughout the United States and the world.

Aegis Sciences Corporation is experienced in offering training opportunities to highly qualified and motivated graduates of science programs. Once all applications have been received and reviewed, telephonic and on-site interviews will be scheduled for the best qualified applicants. Once the applicant has been notified of their acceptance, Aegis Sciences Corporation will outline a schedule for the summer internship. The internship does include a stipend, which will be discussed with applicants during the interviewing process.

PLEASE COMPLETE AND SUBMIT TO COMPASS BY 4:30 PM FRIDAY, MAY 24TH, 2010.

You may attach additional sheets, if necessary, to answer questions completely.
